Elog - Bug #14579

IE not preserving session cookie is https not first specified in the url

11/21/2016 11:28 AM - Kyle Hazelwood

Status:	Closed		**Start date:**	11/21/2016
Priority:	High		**Due date:**

Target version:	Version 2.0		**Spent time:**	0.00 hour

Description

If one accesses the elog with http://... or without http at all the elog will not properly log the user in when they attempt to. Once someone accesses the elog using https:// it magically works thereafter, even after the brower is closed and regardless of the url typed. I believe this may have always existed. It appears to be a bug with IE and not the elog
